Realizing the strength of FWSA is grounded in the strength of the Councils, a program to recognize outstanding Council efforts was created. The **Council Outreach Program** provides visibility and recognition to those Councils that have been successful in implementing programs that increase and foster membership in ski clubs, improve education/communication mechanisms, increase member involvement and create brand recognition of FWSA, its programs and benefits.

Each year Councils are invited to apply for funding to cover costs incurred for implementing such activities via the Council Outreach Program. Priority for funding will be for innovative projects that provide ideas for other councils.

Describe the objectives of the program (what you were trying to achieve).

If it is an event, a FWSA banner must be displayed, Skiers Guides must be distributed and a picture showing the banner and booth or table must accompany this application.

Planning and Implementation
